

The Nursing Community Commends the Introduction of Legislation That Would Secure Future Investments for America's Health

Wednesday, June 10, 2015- As a coalition of 61 national nursing organizations, the Nursing Community fully supports the Title VIII Nursing Workforce Reauthorization Act (H.R. 2713), which will reauthorize the Health Resources and Services Administration's Nursing Workforce Development programs (authorized under Title VIII of the *Public Health Service Act* [42 U.S.C. 296 et. seq]) through fiscal year 2020. The Nursing Community is committed to improving the health and health care of our nation by collaborating to support the education and practice of Registered Nurses and Advanced Practice Registered Nurses. The Title VIII Nursing Workforce Reauthorization Act is a critical investment that will enhance the future of the nursing profession as it continues to provide our nation's patients with the high-quality healthcare services needed for a healthier tomorrow.

For over fifty years, Title VIII has helped to build the supply and distribution of qualified nurses to meet our nation's healthcare needs. These programs bolster nursing education at all levels, nurses in the workforce, and provide support for institutions that educate the future nurses who are essential to ensuring the demand for nursing care is met. Nurses supported through these programs go on to provide high-quality, evidence-based practice to patients in a variety of settings, including hospitals, long-term care facilities, community centers, state and local health departments, schools, workplaces, and patient homes.

The Title VIII Nursing Workforce Reauthorization Act is vital for the sustainability of America's health as it would ensure the Nursing Workforce Development programs have a current federal authorization necessary for funding in future fiscal years. Additionally, the reauthorization includes four technical changes that are in line with current nursing roles and practices.

Collectively, the Nursing Community represents over one million registered nurses, advanced practice registered nurses, nurse executives, nursing students, faculty, and researchers. The 52 undersigned organizations express staunch support for the Title VIII Nursing Workforce Reauthorization Act, as it strengthens the future of the nursing profession and thus the future health of our nation.
