

August 9, 2019

The Honorable Roy Blunt
Chairman
Subcommittee on Labor, Health and Human
Services, Education, and Related Agencies
United States Senate
Committee on Appropriations
Washington, DC 20510

The Honorable Patty Murray
Ranking Member
Subcommittee on Labor, Health and Human
Services, Education, and Related Agencies
United States Senate
Committee on Appropriations
Washington, DC 20510

Dear Chairman Blunt and Ranking Member Murray:

On behalf all 62 Nursing Community Coalition organizations, as you continue the appropriations process now that a bipartisan budget agreement has been reached, we respectfully reiterate our request of **\$266 million for the Nursing Workforce Development programs (Title VIII of the Public Health Service Act [42 U.S.C. 296 et seq.]) and \$173 million for the National Institute of Nursing Research (NINR, National Institutes of Health) in Fiscal Year (FY) 2020**. Through this support, the Subcommittee would continue its strong commitment to these essential programs and safeguard the public's well-being by ensuring that federal investments for the nursing workforce, healthcare, and research are sustained.

The Nursing Community Coalition, which represents the cross section of education, practice, research, and regulation within the nursing profession, is committed to advancing the health of our nation through the nursing lens. As the largest segment of the healthcare workforce, there are over four million licensed Registered Nurses (RNs), Advanced Practice Registered Nurses (APRNs), and nursing students who are involved at every point of health care nationwide. It is this steadfast commitment to funding Title VIII Nursing Workforce Development Programs and NINR that propels progress in ensuring communities across the country have access to high-quality nursing care.

In fact, Title VIII Nursing Workforce Development Programs are instrumental to bolstering and sustaining the nation's nursing pipeline by addressing all aspects of nursing workforce demand, including education, practice, recruitment, and retention. Furthermore, these programs increase access to care in communities that need it most; those in rural and underserved areas. Equally as integral to advancing the health of individuals, families, and communities is funding of NINR. As one of the 27 Institutes and Centers at the National Institutes of Health, NINR's research projects are aimed at reducing burdensome chronic illness, improving end of life care, and promoting patient-centered care across the life continuum. From disease prevention and global health, to precision medicine and genomic studies, NINR is at the forefront of nursing science and research.

Again, we urge you to **support \$266 million for the Title VIII Nursing Workforce Development Programs and \$173 million for the National Institute of Nursing Research in FY 2020** and ensure our patients and communities have continued access to these vital nursing education, research, and practice programs. If our organizations can be of any assistance, or if you have any questions, please contact the Nursing Community Coalition's Executive Director, Rachel Stevenson, at rstevenson@thenursingcommunity.org or at 202-463-6930, ext. 271.

Sincerely,
